at Glendale Memorial Hospital

Colorectal Cancer Screening Saves Lives!

45

Starting at the age of ~~50~~, everyone should schedule a colonoscopy to screen for colorectal cancer.

Contact your doctor if you have a family history of colorectal cancer or if you have any of the following symptoms:

- Blood in or on your stool
- Persistent change in bowel function
- Mucus mixed with stool
- Unexplained anemia
- Unexplained weight loss
- Chronic fatigue

Colorectal Cancer
Is
Preventable, Treatable and Beatable.
